

# Raccords en laiton accessoires Sprint® Série S2000

Raccordement: BSP (G1/8", G1/4", G3/8", G1/2"),  
BSPT (R1/8", R1/4", R3/8", R1/2")

Les raccords accessoires Sprint® existent en 14 modèles différents. La particularité de cette série est l'intégration de la bague Sprint®, évitant l'utilisation d'un produit d'étanchéité qui engendre une perte de temps au montage. Ce système garantit plusieurs montages et démontages du raccord.

La bague Téflon Sprint® permet une parfaite étanchéité sans aucune préparation du filetage. Ainsi, il n'y a pas de pollution de l'installation par des résidus de liquide ou bande d'étanchéité.

## CARACTERISTIQUES GENERALES

**Raccordement** Gaz conique ISO 7 ( BSPT ) - Gaz cylindrique ISO 228 ( BSP )

**Température** -40 à + 120°C

**Fluide** Air comprimé et autres fluides basse pression

**Matériaux** Laiton nickelé - Bague d'étanchéité PTFE

**Pression** 80 bar

# Raccords en laiton accessoires Séries 2000 et FR2000

Raccordement: métrique (M5),  
BSP (G1/8", G1/4", G3/8", G1/2", G3/4", G1"),  
BSPT (R1/8", R1/4", R3/8", R1/2", R3/4", R1")

Lors d'opération de maintenance ou de réalisation d'une installation, il est souvent difficile de prévoir les raccords nécessaires. C'est pour cette raison que les raccords accessoires assurent un rôle important dans la mise en œuvre d'une installation. La gamme accessoires, constituée de raccords droits, en L, en T, en croix... etc... est disponible en différents modèles allant jusqu'à 1".

## CARACTERISTIQUES GENERALES
