

Wood processing Customized products

I. Application

II. Product

1. Clamp

2. Position

3. Other products

Cutting

Edge Banding

Drilling

CNC Processing

Polishing

Application	Cutting and drilling machine
product	MAL63, SC100
Work condition	Without additional guide, the rod will resist eccentric load
Spec.	1. The longer bush to resist load. 2. The bigger rod and the small tolerance maintain the rod work smooth.

Product

Application

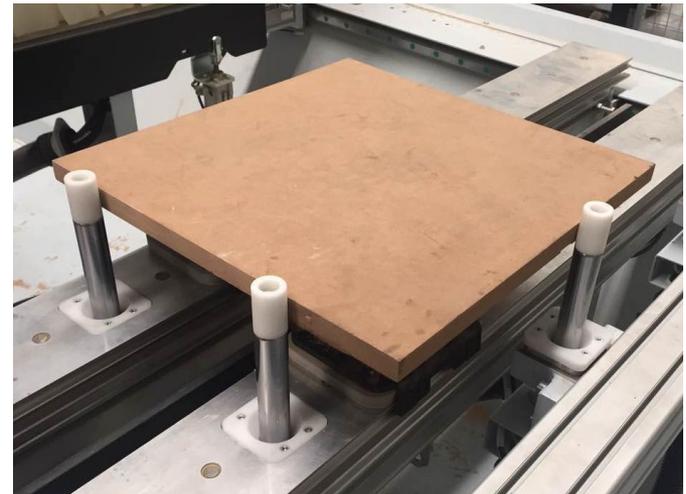

Application	CNC machinery center
product	MAL40, TWQ series
Spec.	<ol style="list-style-type: none"> 1. The appearance are different according the machine structure. 2. According different requirement, the material of the rod is different. Like steel aluminum and POM. 3. The function is similar as the Stopper cylinder.

Product

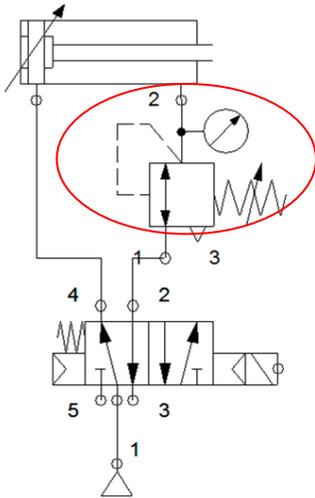

Application

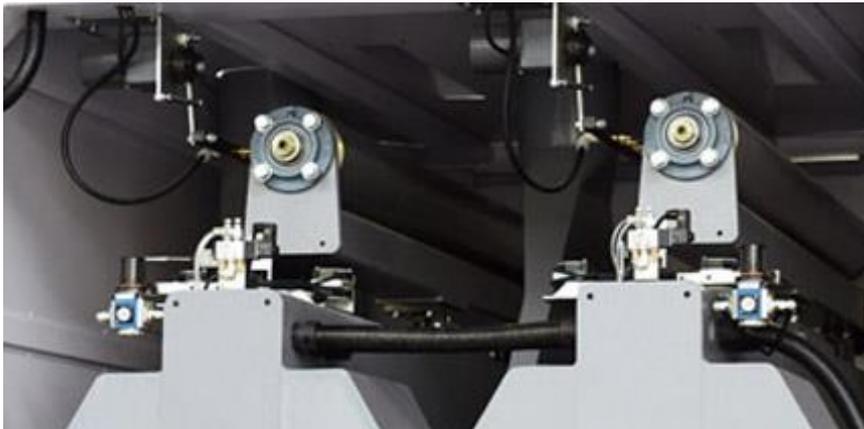

Application	Edge banding machine
product	SDR200
Spec.	Fast release and balance while the pressure increased

Product

Application	Edge banding, polishing machine
product	Combined Valves
Spec.	Modularization, save the space, convenient to assemble.
