ROTOR PUMPS

ROTOR PUMPS

	Model No.	Maximum operating pressure* ¹ MPa {kgf/cm ² }	Theoretical discharge rate cm ³ /rev																Page
			1				5			10						50		100	
RP series	RP08	14 {140}	8.0																C-5
	RP15	14 {140} 21 {210}	14.8																
	RP23		24.4																
	RP38		37.7																

Note: *¹ The maximum operating pressure varies depending on the control method and motor output. Refer to Page C-7 for details.
